Le Théâtre du Merveilleux

A PALACE OF MARVELS AND ILLUSIONS FOR YOUR SPECIAL EVENTS

This palace of marvels and illusions, where the real meet the virtual pays tribute to a form of entertainment popular in the 19th century: “The Theatre of Marvels and its phantasmagorias”. This giant cabinet of curiosities will amaze your guests and provide them with an unforgettable experience.

THE PERFECT VENUE FOR LARGE SCALE EVENTS

The versatility of the space will enable to transform it accordingly to your events specifications. It is the biggest of our four venues and is perfectly suitable for conferences, fashion shows, dinner dance, formal dinners and cocktail receptions for numerous guests.

The orchestration of the lighting, sound and optical effects turns this venue into a massive show hall. The numerous authentic attractions are featured along with our virtual astrological game and video shows to please your guests.

THE STAGING OF OBJECTS

Jean Paul Favand, known for his career in staging objects, has created a 1800sqm curiosity cabinet where each and every object has been restored and adjusted to bring about a dialogue with the public. The unique orchestration of objects, light, and petrified woods provide this Pavilion with its surrealist atmosphere.

Our CSR Approach

The Pavillons de Bercy - Musée des Arts Forains are ISO 20121 certified for their event activity.

This international standard, dedicated to the events industry, reflects our commitment to hosting more sustainable and environmentally responsible events. For our clients and partners, this certification guarantees that we do everything possible to help you create a more responsible event. To achieve this, our organisation is built around **three main objectives**:

ENVIRONMENTAL
Control our environmental impact through a circular economy approach.

SOCIAL
Promote quality of life at work for our employees.

ECONOMIC
Maintain and develop our museum-show model.

We want this approach to extend beyond our organisation in order to benefit and raise awareness within our wider ecosystem. From the very beginning of your project, simple actions can already make a difference.

WHAT YOU CAN DO

✓ Anticipate actual needs to avoid waste (catering, goodies)

✓ Choose responsible suppliers and service providers

✓ Encourage your guests to use low-carbon transport options and anticipate the needs of guests with disabilities whenever possible

✓ Communicate responsibly (limited printing, digital materials)

✓ Measure and highlight responsible initiative with your guests and partners

✓ Recover and repurpose waste. To support you in this approach, providers such as Savr and Muto offer practical and easy-to-implement solutions for events

ON OUR SIDE, WE COMMIT TO

✓ Limiting energy consumption

✓ Providing you with a list of suppliers including committed and local partners

✓ Offering a venue accessible via Metro Line 14, equipped for guests with reduced mobility

✓ Providing a venue with sustainable scenography integrated through its heritage objects

✓ Preserving historic fairground attractions that require very little energy

✓ Offering a range of gifts and products made in France or Europe

SPOTLIGHT ON COMMITTED PROVIDERS

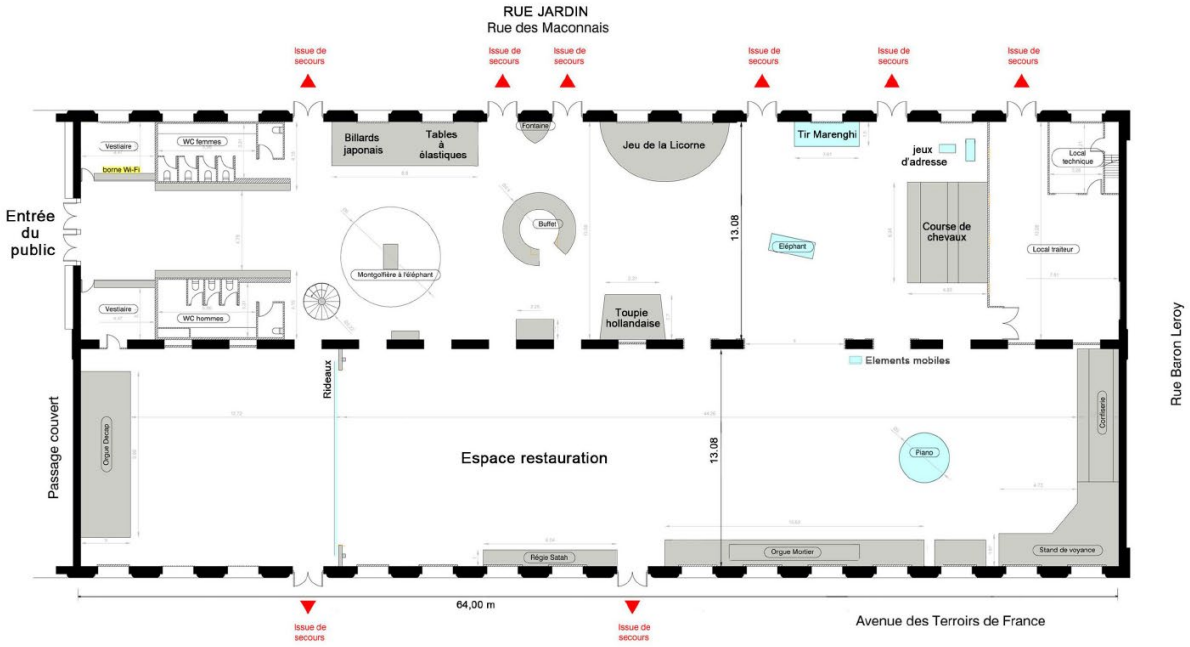

At events, 1 meal out of 10 is thrown away, while at the same time, 1 in 5 people in France faces food insecurity. Savr was created to help reduce this contradiction by enabling event professionals to safely donate surplus food to charities.

Meanwhile, Muto tackles the issue of waste generated by event scenography by encouraging reuse and giving a second life to fittings and materials that are often designed for single use.
